

California Department of Education Regional Web Cast Training

California Alternate Performance Assessment (CAPA) 2004 Statewide Administration

The California Department of Education (CDE) is offering two regional California Alternate Performance Assessment (CAPA) training sessions this spring, using a live Web cast. Use of the high bandwidth California Research and Education Network (CalREN) is enabling CDE to distribute training to 11 County Offices of Education (COE), representing the California County Superintendents Education Services Association (CCSESA) service regions. Both of the training sessions will be available after the live Web casts for reviewing as a streaming video from the CAPA Web site at <http://www.cde.ca.gov/spbranch/sed/capa>.

Session One: Training of Trainers

This session provides trainers of CAPA examiners with an update on CAPA development and will address issues such as adaptations for students and scoring student performance. This training of trainers was offered on January 29, 2004.

Session Two: STAR Coordinator/Special Education Administrator Training

This session addresses the participation of special education students in the STAR Program. Information related to administering the CAPA, CSTs, and CAT/6 Survey, as well as, logistical and organizational issues will be addressed. **It's not too late to register. Call the contact person in your region listed below.**

February 19, 2004

1:30–3:30pm
